The Tyranny of the "OR"**

The great paradox of the 21st century is that, in this age of powerful technology, the biggest problems we face internationally are problems of the human soul.

October 22nd Tyranny

of the "OR"

Our world is full of polarities that are pushing us to the breaking point in many ways. We have been so committed to choosing either/or that we have been unable and unwilling to look at the solutions that may exist when we open to and embrace a new way of thinking. We are now at a tipping point that requires us to step into a new way of being or risk being swallowed by our old outdated mindset that is no longer working. We must release ourselves from the tyranny of the "OR" to embrace the Third Way waiting for us just past the unknown.

We're also creating a committee to coordinate social events - we'd love your help. Reply to this email to join it.
