## Practitioners Plugged- In

### Genius of the "AND"

Truly embracing the genius of the AND, our Paradox Mindset is the way forward. Science of Mind is uniquely poised at the tipping point of creating a world that works for all and we must utilize the

power of our teaching to bring people together into the solution of a third way. As we embrace all aspects of life, navigating the ups and downs, working together to see the benefits of other perspectives than our own, and solving problems that were created at a time when solutions seemed impossible, we find that a paradox mindset is the natural next step in our spiritual evolution.
